Protecting people, products, and information

Loss Prevention in Amazon Fulfillment protects people, products, and information at each site and in the supply chain. That means driving the loss prevention strategy and creating a culture where security is front of mind and risk is eliminated. Specialists build data-driven investigations, conduct interviews, and monitor security risks. Our managers implement programmes to prevent loss, manage Amazon assets, and lead teams of strong people. We plan for every eventuality and inspire our people to perform better. On top of that, we keep the actual buildings secure and analyze losses.

The desired skills for a Loss Prevention leader are having a bias for action and critical thinking. Typical roles in loss prevention and security include Loss Prevention Manager and Loss Prevention Coordinator

LION | LinkedIn Open Networker

Highly accomplished and detail-oriented professional with vast experience leading loss prevention & asset protection teams, investigations, vulnerability/risk assessments, and security/loss prevention programs in domestic and international environments. Experienced in Operations, Business Development, Change Management, Loss Prevention Management, Asset Protection Management, Strategic Planning, Risk Management, Safety Program Development & Management, Administration, Human Resource Management, International Business Development, and Crisis Action Management.

A proven executive leader with astute change management skills in recruiting, training, motivating, and coaching teams to exceed organizational objectives. Demonstrated experience initiating cost containment strategies resulting in significant savings in corporate operations. Strong analytical skills and project management abilities. Able to orchestrate complex, strategic operations in global business environments. Experienced managing cultural diversity within an international environment.

Tampa/St. Petersburg, Florida Area

I was not going to let a lengthy hospital stay keep me from learning and being productive. I used my time in the hospital to write and self publish a book called "The Moringa Consumer Awareness Guide to help educate the world on the many benefits of this amazing botanical called "Moringa Olifera". This book is sold in the printed and digital version in 5 countries and I hope it will help others to find out more about the many health and vitality benefits that have blessed my life and the lives of countless others.

U.S. Military Maintenance Kentuckiana
Business Owner
February 2017 - May 2018 (1 year 4 months)
Kentucky & Southern Indiana

US Military Maintenance is a U.S. veteran employment program of Patriotic Hearts, a 501c3 charity. We select U.S. veterans from across America and help them build their own US Military Maintenance businesses. We establish veteran owned businesses that employ other U.S. veterans at a good wage.

US Military Maintenance Kentuckiana is not just a cleaning company. Our mission is to employ veterans and their families with a living wage. Here at U.S. Military Maintenance Kentuckiana we feel that no soldier should return home and face the awful reality of unemployment. By employing veterans we offer the customer unparalleled service and standards that far outweigh industry norms. At our core we are a giving-back organization. Veterans possess an amazing work ethic and unwavering pride in all they do. U.S. Military Maintenance Kentuckiana is not your average cleaning company.
